Qr Pro
IP20 Tilt GU10
WiZ

Smart Lighting

Product Information

KSR Lighting have been working with WiZ on integrating our existing range of downlights with the smart technology provided by WiZ. The outcome of this venture means we can now bring you Smart enabled products such as our Qr Pro IP20 Tilt GU10 downlights that have all the properties of our existing popular downlights with the ability to control them using the WiZ App.

Complete with a 5 year warranty for your peace of mind.

Product Features

- 5 year warranty
- Class II
- IP20
- 5.5w 2700K or 4000K LED Lamp options
- Tuneable White (2700K-6500K) + RGB Option
- Colour rim options available
- Push Fit Terminal Block
- Works with Google Assistant, Alexa, Siri Shortcuts and IFTTT
- Seamless easy pairing
- Control anywhere
- WiFi Enabled without the need for a restrictive bridge
- 24/7 App Support
- Life expectancy up to 25,000 hours

THE ULTIMATE LIGHTING CONTROL APP

Home screen   Schedules   Scenes

The heart of the WiZ Connected system is the App which is easy to use and is available to download from the App Store or Google Play for use on a multitude of devices.

The App is a professional grade lighting control system. Standing out from other lighting control apps with its scalability; it can effortlessly manage hundreds of lights in multiple locations. The App will guide you through pairing your luminaires, then how to control, group, schedule and set scenes.

Multiple homes:
- Auto-swap based on the WiFi network you are connected too

Multiple user management/sharing:
- Owner: Remote access to all settings and lights from anywhere (e.g. 4G wireless, etc)
- Guest: Local access to light (WiFi only)
- Temporary guest: expiration date for local access

Grouping:
- Easy grouping, simply pick the lights in the room you want grouped then drag and drop them

Advance light settings:
- Default intensity
- Fade-in/Fade-out times

www.ksrlighting.com

3 Types of schedules:

Active schedules -
- Per light mode (including brightness change) and per room
- With a beginning and an end (which can revert back to the previous mode)

Scheduled pre-sets -
- With between 2 and 5 phases that can be customized by the user
- Background schedules that can be triggered by voice, IFTTT-like event (e.g. geofencing) etc.
- Well-being meets energy saving (dimming preference)

Never let people know that you're not at home

Vacation mode -
- Simple scheduled events to simulate presence in the morning and evening while you are not there, automatically disabling your scheduled events enabled/disabled by the flick of a switch

Quick light control:
- The widget lets you control your lights even when you haven't unlocked your phone

Night light mode:
- One button touch to turn on a low powered night light mode

All On/Off:
- Just hold the On or Off button on a lamp and you get the option to turn on or off all the WiZ Connected lights in your home

Multi-language:
- The App interface and FAQ are available in 7 languages - English, French, German, Dutch, Spanish, Italian and Russian

Chat support:
- 24/7 support is available directly from the App
