

Read these instructions before commencing installation. Please give these instructions to the owner/occupier after installation to retain for future reference/maintenance.

IP20     240VAC~50HZ 5A

Important Information

It is recommended that the track system is installed and fitted by a qualified electrician ensuring the installation complies to current IEE wiring regulations & local building control. These products are designed for use with the Escala Pro single circuit track luminaires only. Any damaged parts should be replaced as soon as possible. KSR will not accept responsibility for any claims arising from a sub-standard installation.

Important User Advice

Always switch off mains supply before installing or servicing.
This product is designed to be used indoors only.

Installation Procedure

Familiarize yourself with the way the luminaire installs into the surface plate, paying particular attention to the locking tab.
Fix the mounting bracket (Fig. 1) to the ceiling using suitable fixings for the ceiling construction.
Connect the cables to the lighting circuit (Brown - Live, Blue - Neutral, Green/Yellow - Earth).
Fit the plate to surface plate to the mounting bracket using the screws provided.
Install your chosen Escala Pro luminaire into the surface plate, ensuring the locking tab is locked into place.
Switch on mains supply and test.
